WHAT WE DO

Full-spectrum signage solutions

Every sign is designed, engineered, and fabricated in-house — from concept to installation. Premium illuminated advertising systems for brands that need to be seen day and night.

CHANNEL LETTERS

Custom dimensional lettering with internal LED illumination for storefronts and buildings.

LIGHTBOXES

Even, high-intensity illumination. Single- or double-sided designs.

LED DISPLAYS

High-resolution digital signage for dynamic content and real-time messaging.

LED NEON

Custom LED neon for striking, high-impact installations.

ADVERTISING PYLONS

Freestanding pylons that make your brand stand tall 24/7.

MONUMENT SIGNS

Ground signs that make a bold statement at your property entrance.

CUSTOM SOLUTIONS

Tailored signage designed specifically for your business needs.

INSTALLATION & MAINTENANCE

Professional install, service, and ongoing maintenance.

HOW IT WORKS

Three clear steps

01

SHARE YOUR VISION

Send your request, logo, and concept for an illuminated advertising system.

02

PERSONALIZED PROPOSAL

We discuss ideas and deliver a no-obligation proposal tailored to your vision.

03

FABRICATE & INSTALL

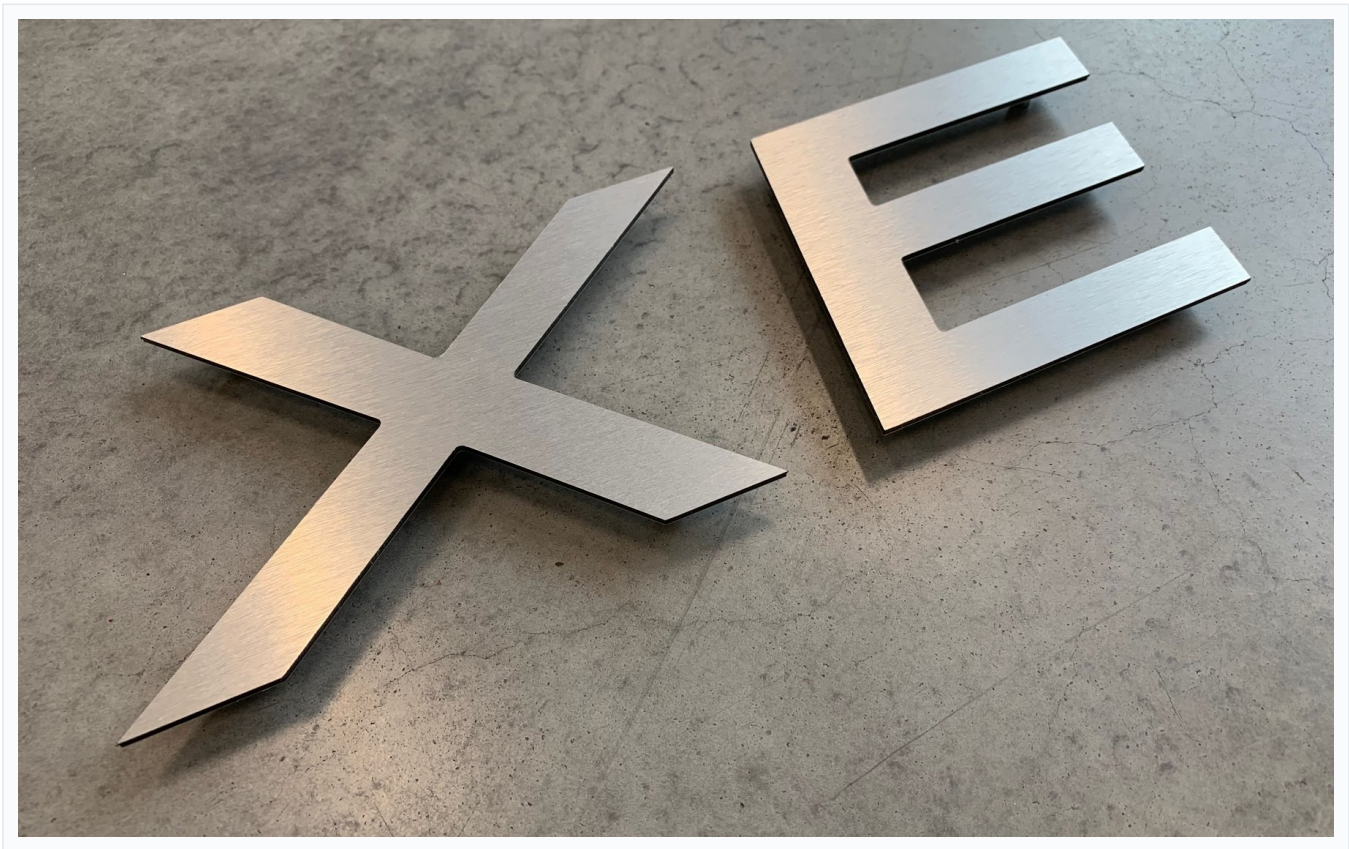

Detailed plans, in-house fabrication, and professional installation.

PROFILE 00 ACM

Elegant and durable signage

CODE P00-ACM	MATERIAL ACM	DEPTH 3 mm	FAMILY Non-Illuminated Letters
------------------------	------------------------	----------------------	--

DESCRIPTION

Flat, CNC-cut letters made from premium aluminum composite material for clean, modern signage.

FEATURES

- Weatherproof
- Custom colors
- Easy install

Manufacturing: Cutted out from aluminum composite panel / aluminum composite material.

SCAN TO INQUIRE

PROFILE 00 Acrylic

Elegant and durable signage

CODE P00-ACRYLIC	MATERIAL ACRYLIC	DEPTH 10 mm	FAMILY Non-Illuminated Letters
----------------------------	----------------------------	-----------------------	--

DESCRIPTION

High-quality non-illuminated letters for a classic look.

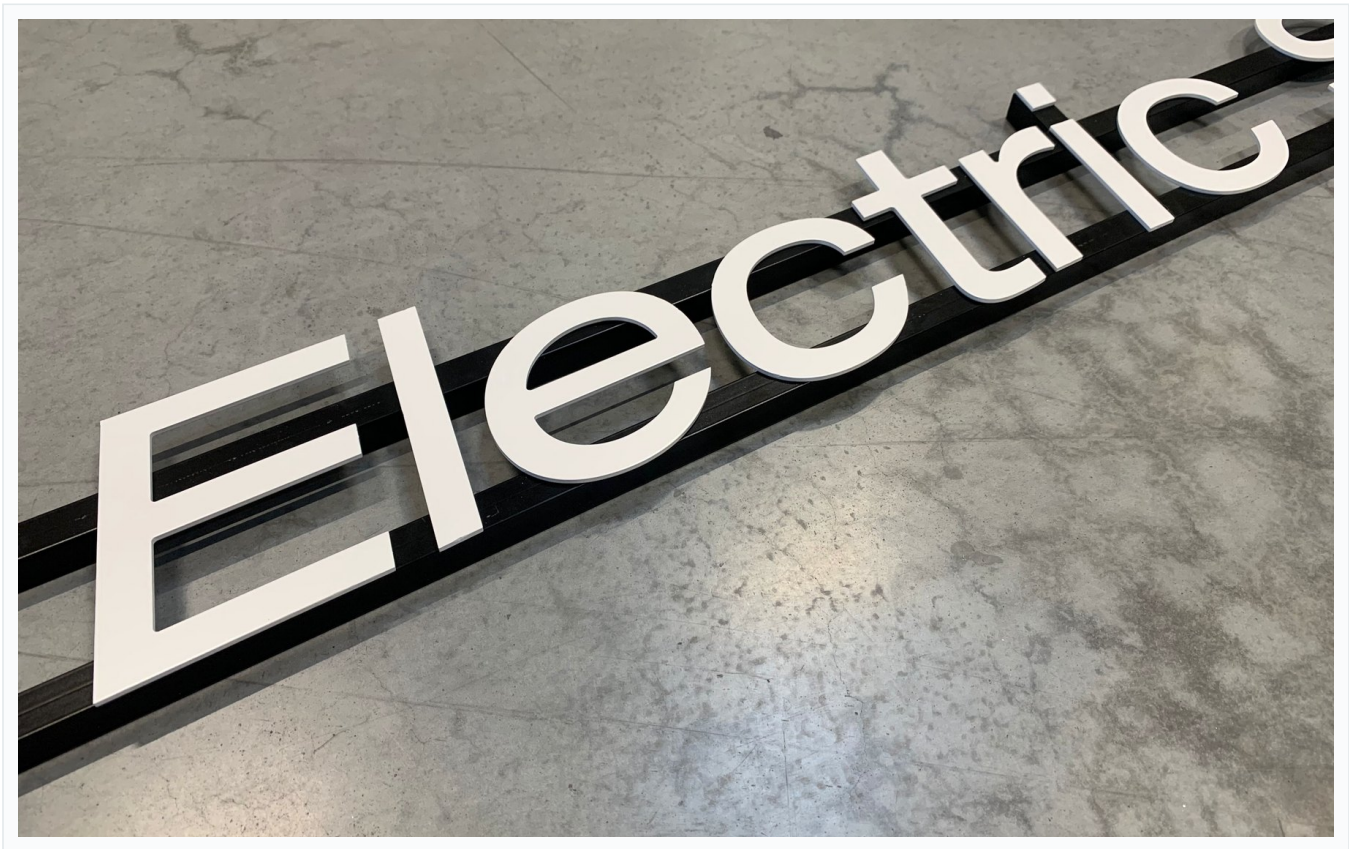

FEATURES

- Weatherproof
- Custom colors
- Easy install

Manufacturing: liquid-coated finish (NCS).

SCAN TO INQUIRE

PROFILE 00 Aluminum

Elegant and durable signage

CODE P00-ALUMINUM	MATERIAL ALUMINUM	DEPTH 3 mm	FAMILY Non-Illuminated Letters
-----------------------------	-----------------------------	----------------------	--

DESCRIPTION

High-quality non-illuminated aluminium letters for a classic look. Precision-cut from flat aluminum, 3-10mm thick, powder coated in RAL classic colors for a sleek and durable finish.

FEATURES

- Weatherproof
- Custom colors
- Easy install

Manufacturing: RAL Classic.

SCAN TO INQUIRE

PROFILE 00 STYROFOAM

Volumetric letters - quickly and inexpensively!

CODE P00-FOAM	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Non-Illuminated Letters
-------------------------	------------------------------	-----------------------	--

DESCRIPTION

Expanded polystyrene is the cheapest and easiest material to work with for making volumetric letters. Its sizes are almost unlimited. If your project size exceeds the block dimensions, expanded polystyrene can be easily glued..

FEATURES

- Liquid-coated finish (NCS)
- Easy install

Manufacturing: liquid-coated finish (NCS).

SCAN TO INQUIRE

PROFILE 01

Volumetric letters!

CODE P01	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Non-Illuminated Letters
--------------------	------------------------------	-----------------------	--

DESCRIPTION

3D dimensional letters with depth that create a striking, premium raised effect for maximum brand impact.

FEATURES

- RAL Classic
- Easy install

Manufacturing: liquid-coated finish (NCS).

SCAN TO INQUIRE

PROFILE 01 MOSS

Volumetric letters!

CODE P01-MOSS	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Non-Illuminated Letters
-------------------------	------------------------------	-----------------------	--

DESCRIPTION

Profile 01 Moss brings a natural, organic dimension to signage. Letters are filled with high-quality moss in a variety of shades, creating a striking eco-friendly 3D effect perfect for modern interiors and sustainable branding.

FEATURES

- RAL Classic
- Easy install

Manufacturing: liquid-coated finish (NCS).

PROFILE 1 Acrylic Neon

Bright and eye-catching

CODE P1-ACRYLIC-NEON	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
---------------------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Modern acrylic neon letters with backlit illumination that perfectly recreate the classic neon glow using energy-efficient LEDs. Instead of fragile glass tubes or flexible neon tubing, these letters use solid, high-quality acrylic that is CNC-milled for perfect edge lighting. The result is a clean, uniform neon-style illumination that's visually striking yet far more practical and durable.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

Manufacturing: RAL Classic finish.

SCAN TO INQUIRE

PROFILE 1 Premium Acrylic Neon

Bright and eye-catching

CODE P1-P-ACRYLIC-NEON	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
---	-------------------------------------	------------------------------	---

DESCRIPTION

Experience the iconic neon glow with modern efficiency. Our Profile 1 Premium Acrylic Neon letters feature a precisely milled acrylic contour that creates a vibrant, luminous “faux-neon” effect when backlit with state-of-the-art LEDs. Instead of fragile glass tubes or flexible neon tubing, these letters use solid, high-quality acrylic that is CNC-milled for perfect edge lighting. The result is a clean, uniform neon-style illumination that's visually striking yet far more practical and durable. Choose from dozens of vibrant colors as front and back can be painted in different colors for a unique, eye-catching effect.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

SCAN TO INQUIRE

PROFILE 2 Acrylic Neon

Bright and eye-catching

CODE P2	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
--------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Experience the classic neon glow with enhanced depth and brilliance. Our Profile 2 Acrylic Neon letters feature a precisely milled clear acrylic body with an integrated shielding edge — just like traditional glass neon tubes. This distinctive shielding edge not only adds a refined, authentic look but also acts as a reflector, directing and intensifying the light for a richer, more uniform neon-style glow. Backlit with energy-efficient LEDs, these letters deliver outstanding visual impact while maintaining a slim, elegant profile.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

SCAN TO INQUIRE

PROFILE 2 Premium Acrylic Neon

Bright and eye-catching

CODE P2-P	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
----------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Elevate your signage with sophisticated depth and contrast. Our Profile 2 Premium Acrylic Letters feature a premium two-piece construction that creates a striking dimensional effect. The front face and the raised shielding edge are crafted as separate pieces in contrasting colors, giving these letters exceptional visual depth and a high-end, layered appearance. This refined design enhances the classic Profile 2 silhouette while adding modern elegance and character.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

SCAN TO INQUIRE

PROFILE 3

Bright and eye-catching

CODE P3	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
-------------------	------------------------------	-----------------------	--------------------------------------

DESCRIPTION

Create a dramatic and elegant halo effect with our Profile 3 backlit letters. Light is precisely directed toward the back, producing a glowing corona (halo) around each letter that makes them appear to float gracefully off the wall. This sophisticated indirect illumination highlights the letter shapes with a soft, luminous outline while keeping the front face dark and refined. The result is a premium, modern look that's eye-catching yet understated — perfect for high-end branding.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

SCAN TO INQUIRE

PROFILE 3 Premium

Bright and eye-catching

CODE P3-P	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
----------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Create a luxurious and dramatic halo effect with our Profile 3 Premium letters. Made from thicker, high-quality acrylic, these backlit letters direct light not only to the back but also elegantly to the sides, producing a rich, three-dimensional glow that surrounds each letter with a soft luminous halo. The substantial acrylic depth enhances light diffusion and creates a more pronounced, premium halo effect. These letters can be mounted directly onto the wall or onto a background panel, offering maximum flexibility for different facade designs.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

PROFILE 3 Reflector

Bright and eye-catching

CODE

P3-R

MATERIAL

STYROFOAM

DEPTH

30 mm

FAMILY

Illuminated Letters

DESCRIPTION

Achieve a flawless dramatic halo effect with our Profile 3 Reflector letters. These backlit letters direct light toward the back to create a beautiful glowing corona around each letter, making them appear to elegantly float off the wall. This variant comes with an integrated flat reflector as standard. The reflector is mounted behind the letters, ensuring maximum light output, even illumination, and a clean, consistent halo — even on dark or uneven surfaces.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

PROFILE 4

Bright and eye-catching

CODE P4	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
--------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Make a powerful statement with our Profile 4 front-illuminated letters. These robust, large-format channel letters feature a durable aluminum body with a translucent acrylic front face that delivers bright, even illumination from within. Designed with a strong aluminum base and mounting bracket, Profile 4 is the ideal choice for oversized signage. The classic front-lit design ensures maximum visibility and impact, both day and night, making it perfect for large-scale applications.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

SCAN TO INQUIRE

PROFILE 5

Bright and eye-catching

CODE P5	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
-------------------------------	--	-----------------------------------	--

DESCRIPTION

Deliver bright, professional front lighting with our Profile 5 letters. These channel letters feature a sturdy aluminum body with a translucent acrylic face securely attached using Elkamet Trim Cap — a high-quality plastic edge tape with a metal core. The Trim Cap system creates a clean, durable, and precisely finished edge while ensuring excellent light diffusion. Profile 5 offers an outstanding balance of performance, aesthetics, and value, making it a popular choice for medium to large signage.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

PROFILE 6

Bright and eye-catching

CODE P6	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
--------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Achieve a sleek, frameless look with our Profile 6 letters. This modern channel letter design features a fully illuminated acrylic front that delivers bright, uniform light all the way to the edges. The acrylic front panel and coated aluminum side are invisibly bonded, creating a seamless, elegant appearance without visible trim.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

Manufacturing: F-trim attachment for clean look.

PROFILE 6 Premium

Bright and eye-catching

CODE P6-P	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
----------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Achieve a brilliant 3D glowing effect with our Profile 6 Premium letters. These premium channel letters use thick, high-quality acrylic that illuminates both the front and the sides, creating a rich, luminous three-dimensional appearance. The clean, frameless design combined with the substantial acrylic depth delivers uniform light distribution across all visible surfaces.

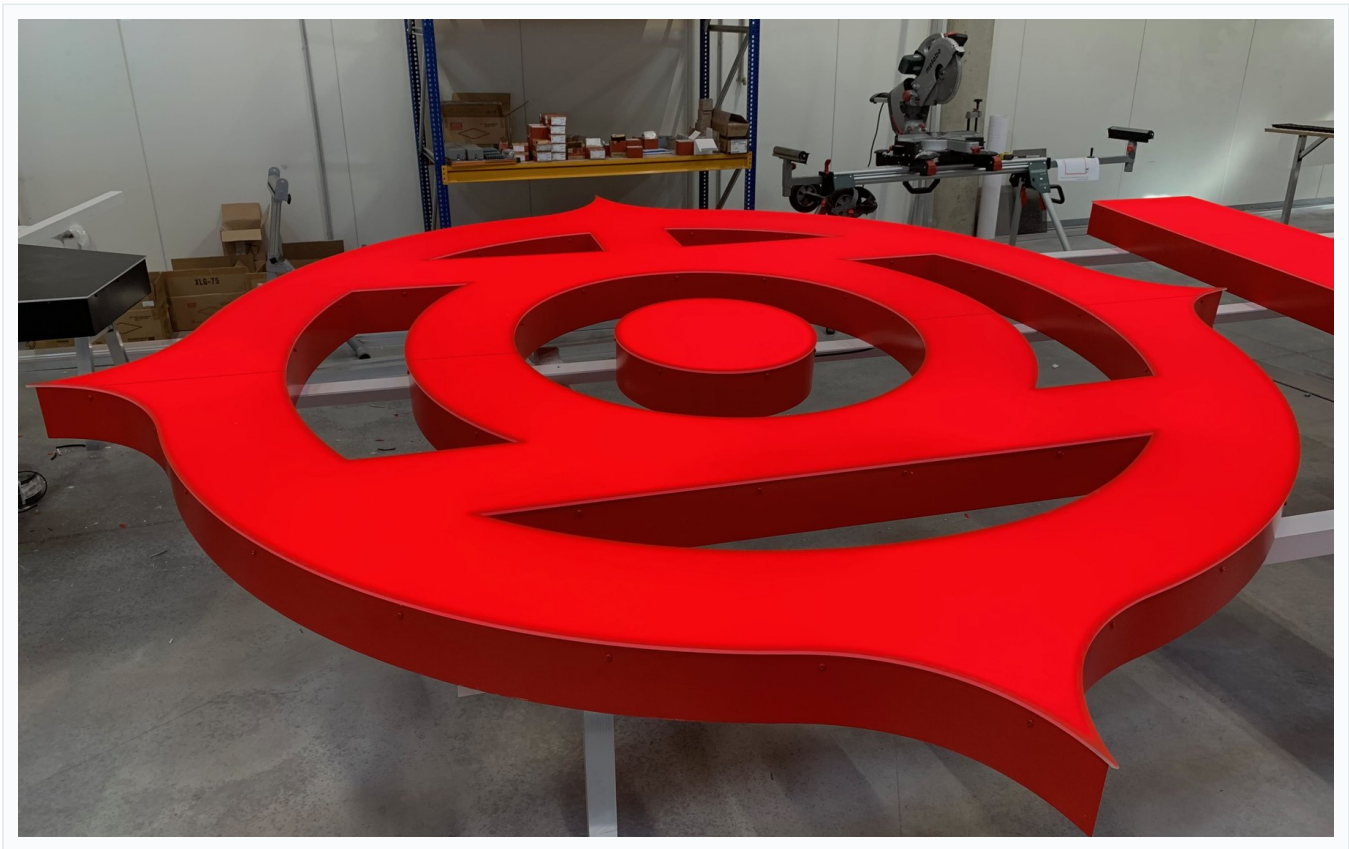

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

Manufacturing: F-trim attachment for clean look.

PROFILE 6 Strong

Bright and eye-catching

CODE P6S	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
---------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Enjoy the same sleek, frameless elegance as Profile 6 with enhanced construction for larger formats. The translucent acrylic front is securely attached to the aluminum body using a hidden internal PVC list (mounting strip). This reinforced construction provides greater stability and strength, making it ideal for slightly larger letters while maintaining the seamless, minimalist appearance.

FEATURES

- LED illuminated
- Weatherproof
- Custom colors
- Easy install

PROFILE 8

Bright and eye-catching

CODE P8	MATERIAL STYROFOAM	DEPTH 30 mm	FAMILY Illuminated Letters
--------------------------	-------------------------------------	------------------------------	---

DESCRIPTION

Profile 8 letters consist of a premium upper part with front and sides made of acrylic glass, which fits over a sturdy lower part made of aluminum (or milled plastic). The two parts are securely joined with screws from the rear, ensuring a clean and durable finish. Available with an opaque acrylic front or in colored acrylic, with multi-color combinations available as an option. This versatile design allows beautiful light diffusion and striking visual effects.
